Figure 4 – installation progress

After completing the installation of Web-client (desktop client) an information window will be displayed (Fig. 5), where you should click **Finish** to exit the installation wizard.

Figure 5 – completing installation

As a result, the shortcut will display on the desktop::

• Hardware ID – the shortcut to launch the application, Hardware id, intended for generation hardware code of the computer on the basis of which a licence is granted to use Web-client (desktop client).

After installation, you must obtain the license file, start the service and perform the initial system configuration.
